## The Brady Brief - Hiring Incentives to Restore Employment Act

Dear Friend,

Getting Americans back to work is one of my top priorities, and last week Congress took another step forward to create more jobs and reverse unemployment by passing the Hiring Incentives to Restore Unemployment (HIRE) Act.

I proudly supported and voted for this bill, as it creates jobs and restores the American economy. The following are some of the main provisions of the HIRE Act, but for more information on this bill, job creation, or any other issue, please visit [my website](#).

- A payroll tax break for businesses that hire unemployed workers, creating 300,000 jobs
- An income tax credit for businesses that retain previously unemployed employees
- Tax cuts to spur new investment by small businesses to help them expand and hire more workers
- Extension of the Highway Trust Fund allowing for tens of billions of dollars in infrastructure investment
- Provisions to make it easier for states to borrow for infrastructure projects, such as school construction and energy projects

The passage of this bill is critical to getting more Americans back to work soon and it restores confidence that Congress can work together to get our economy back on track. In the coming months, I look forward to working with my colleagues to create more jobs and better our economy. As always, if you have any questions or comments regarding this or any other issue, do not hesitate to contact my office.

Sincerely,

Robert Brady  
Member of Congress
